

# Fleur Aston

## *Plant hunter*

*[cargocollective.com/fleuralstonphotography](http://cargocollective.com/fleuralstonphotography)*

*Each image in Plant hunter is a combination of 6 days of photographs taken over a period of two weeks exploring the decay of a single flower. It is about the various contortions and unexpected movements of the flowers in their decomposition and the observation of the varying degree and speed of the process in each flower. The simple bare truths of a secret world are revealed in ghostly traces and shadows exposing a gentle undulating beauty in the process of decay.*
